Supervisor Antonovich made the following statement:

“Water is our most precious natural resource. The drought years of 1987 through 1993 taught us the importance of conserving water. In the County of Los Angeles and across California, residents, local governments, and businesses are making water conservation a way of life.

“Throughout the month of May 2004, the Walnut Valley Water District and the California Water Awareness Campaign, composed of various urban and agricultural water agencies, cities, farm bureaus and other organizations, will be working to increase understanding of water conservation.”

Therefore, on motion of Supervisor Antonovich, seconded by Supervisor Knabe, unanimously carried (Supervisor Molina being absent), the Board proclaimed May 2004 as "Water Awareness Month" throughout Los Angeles County; and urged all County citizens to support local water organizations in the effort to promote water conservation.
